

# **SIMULATION OF THE DISTRIBUTED SELECTION AND SUPPLY OF COOLING AIR IN GAS-TURB ENGINE**

©2009 A. I. Goryunov, I. M. Goryunov

Ufa State Aircraft Technical University

Mathematical models GAS-TURB ENGINE are considered in view of the distributed selection of air from the compressor and the distributed supply of cooling air in the turbine.

*Mathematical model, GAS-TURB ENGINE, the compressor, the turbine, selection of air, air intake*
