Results of modeling cinematically the possible field of speeds describing process of plastic deformation of trumpet preparation at bending process of pipes by distribution in stamps are submitted.

Modeling, field of speeds, plastic deformation, trumpets, bending process by distribution, stamps

Davidov Oleg Yurievich, the candidate of Technical Sciences, the lecturer of Voronezh State Technology Academy. Phone (4732) 55-47-20. Area of research: processing metals with a pressure.

Egorov Vladislav Gennadievich, the doctor of Technical Sciences, professor, general director of the Scientific research Institute of the Automated Means of Production and Control. Phone (4732) 75-30-52. E-mail: akvapaskal@intercon.ru. Area of research: aircraft technology.

Kochegarov Alexander Ivanovich, the manager of department of the Scientific research Institute of the Automated Means of Production and Control, Voronezh. Phone (4732) 75-30-52. E-mail: akvapaskal@intercon.ru. Area of Research: aircraft technology.
