

OPTICAL MICROMANIPULATION

© 2008 R.V. Skidanov

Image Processing Systems Institute of the RAS

Historical outlook into the development of the research of manipulation of microobjects in light beams is given. Experimental results on microparticle rotation in the light beams are discussed.

Optical micromanipulation, DOE, Bessel beams, vortical beams, diffractive optics

Skidanov Roman Vasilyevich, Establishment of the Russian Academy of Sciences Image Processing Systems Institute of the RAS of the Russian Academy of Sciences, Samara, Russia. He holds the degree of Doctor in Physics & Mathematics. The senior scientific employee. Research interests are in the field of diffractive optics, optical micromanipulation
