

FLIGHT PATH OF A SUPERSONIC AEROPLANE AS THE FIRST STAGE OF AN AEROSPACE SYSTEM

©2009 V. L. Balakin, V. I. Potapov

Samara State Aerospace University

The paper analyses the motion of a supersonic aeroplane as the first stage of an aerospace system when performing the “dynamic zoom” manoeuvre with the aim of maximum climb at a given slope of the flight path.

Aerospace system, first stage, supersonic aeroplane, “dynamic zoom” manoeuvre.
